ELEV8²

MONO - SIT STAND DESKS

Elev8² - Mono

available in single desks,
back-to-back desks & as
a bench desk system.

Allowing the individual user
to electronically adjust the
desk height from a sitting to
a standing position with the
touch of a button.

Why opt for a sit-stand solution?

There are two main reasons for looking at a sit-stand desk solution. The ability to sit and stand during the average working day has huge health benefits to the user and it's this active working style that encourages increased staff productivity and reduces absenteeism.

Major international research over recent years has produced evidence that sitting for more than 4 hours a day leads to: Disrupted blood sugar levels, increased insulin, increased blood pressure levels, enzymes responsible for burning harmful blood fats shutting down, and leg muscles switch off.

Studies also show that Elev8² sit-stand desks promote creativity, team interaction, collaboration, and the willingness to share ideas. So, when it comes to the Elev8² range, a desk is much more than a place to work - it's a working culture that benefits both the employee and the company.

Single Motor

Sit-Stand height adjustment is made through a single motor for fluid and natural movement of the 25mm desktops with a maximum weight loading of 160kg.

Two Part Frame

The two tiered leg column offers adjustability from 675mm to 1175mm with a low noise level of 44db to provide all the health benefits of periodic standing.

Fabric Screens

Vibe desktop screens are available in special sizes for Elev8² which provide the same level of privacy between back-to-back Elev8² desk when at their highest and lowest points.

Cable Management

Energy cable chain fits inside the lower cable channel of back-to-back desks for cable management with a vertical cable spine option for the single desks to carry wires from floor to desktop.
